#### Features and Specifications

##### Technology Features

HOLiAUMA fully closed loop Motors:  
It became the first mass-scale mature application in China. Our motor closed loop technology brings the following advantages:

- The motor no longer has abnormal heating of the open loop motor.
- The motor works more accurately, and the embroidery is more exquisite.
- Longer motor life.

Newest high speed 47 head technology:  
This technology much better for cap embroidery because of its machine head arc outside design. High speed cap embroidery condition is more stable. Largely reduces the probability of needle and thread breaking comparing with other traditional types.

The Biggest Cap embroidery area Y side we could reach to 100mm

##### Service Features
